HAMID YAFTIAN

SENIOR FRONT-END ENGINEER

EXPERIENCE

Heaptify

London, England

Senior Front-end Engineer

09/2023 - Present

- Architected React and GraphQL micro-frontend solutions, improving system efficiency by approximately 30% and reducing deployment issues by 40% through close collaboration with backend and DevOps teams.
- Drove unit test coverage from approximately 20% to over 70% via a structured Jest strategy, and accelerated feature delivery by 20–30% through upfront technical feasibility reviews.
- Mentored junior and mid-level engineers through code reviews and architectural guidance, reducing review cycle time by 25%.

Deriv

Cyberjaya, Malaysia

Senior Frontend Developer

01/2023 - 08/2023

- Delivered 20+ product features using React, maintaining a Storybook-driven design system and contributing to a shared UI component library.
- Authored unit tests for 50+ components using Jest and React Testing Library, ensuring maintainability and reducing production bugs.
- Conducted 100+ code reviews and served as Release Manager, upholding engineering standards in a fast-paced agile environment.

Re-Work

Cyberjaya, Malaysia

Senior Frontend Developer

03/2022 - 12/2022

- Built 10+ web applications using React, WebSockets, and REST APIs, with a focus on component-based architecture, reusability, and test coverage.
- Reviewed over 1,000 code submissions, providing structured feedback that reinforced engineering best practices across the team.

Yasna Team

Tehran, Iran

Front-end Team Lead

02/2020 - 07/2022

- Led frontend architecture and development of a modular platform using Vue.js, TypeScript, and SCSS — delivering 50+ reusable UI components and an internal UI framework.
- Designed and implemented a custom CLI tool to standardize project scaffolding and accelerate developer workflows.
- Mentored junior developers through structured code reviews, raising team code quality and maintainability standards.

Hamikar

Tehran, Iran

Front-end Developer

12/2015 - 10/2016

- Led UI kit redesign with Angular.js and Angular Material, reducing UI inconsistencies by 35%; enforced code quality standards through reviews and mentorship, cutting bugs by ~30% and intern onboarding time by 50%.

PROJECTS

jest-graphql-transformer

Jest transformer for importing GraphQL query files in test environments. Referenced in the official Apollo Client docs — ~90,000 downloads in 6 months.
