ABOUT

A seasoned front-end developer with 10 years of experience in JavaScript, React, and TypeScript. Delivering high-quality code and comprehensive testing, resulting in a 99% coverage rate. A collaborative team player who drives 20% efficiency gains through innovative solutions. Proficiency extends to HTML, CSS, SASS, and libraries such as TailwindCSS, while pioneering cutting-edge web designs, addressing complex code challenges, and crafting engaging, business-centric websites aligned with design standards and user preferences.

SKILLS

- JavaScript
- TypeScript
- React
- Next.js
- Jest
- MobX, Redux
- MUI, TailwindCSS, ChakraUI
- HTML, CSS, SCSS

WORK HISTORY

SENIOR FRONTEND DEVELOPER

01/2023 to 08/2023

Deriv | Cyberjaya, Malaysia

- Collaborated cross-functionally to deploy 20+ dynamic features for Deriv's web apps using React for improved user experience.
- Developed and maintained a Storybook instance for Deriv's design system, collaborated with designers and developers to create reusable UI components, and contributed to component library.
- Implemented MobX to manage complex application states in Deriv's web applications, which led to more predictable user interactions and more robust and maintainable user interfaces.
- Wrote comprehensive unit tests for 50+ components, ensuring reliable and maintainable code with reduced bugs.
- Actively participated in 100+ code reviews, maintaining best practices and code quality, while sharing knowledge through participating in meetings and presenting on various topics.
- Worked under tight deadlines in a fast-paced environment using agile methodologies, and demonstrated strong problem-solving skills as Release Manager.

SENIOR FRONTEND DEVELOPER

03/2022 to 12/2022

Re-Work | Cyberjaya, Malaysia (Remote)

- Built 10+ web apps using React, Nextjs, Web Socket, and APIs, emphasizing component-based architecture and efficient state management with MobX.
- Developed custom components with React, Stitches, and Storybook, leading to reusable and easily maintainable code.

- Wrote extensive unit tests for all components, guaranteeing reliability and minimizing bugs.
- Reviewed over 1000 code submissions, giving constructive feedback to fellow developers, and ensuring adherence to best practices.

FRONT-END TEAM LEAD

02/2020 to 07/2022

YasnaTeam | Tehran, Iran

- Led a front-end team in developing a modular platform, using Vue.js and Vuex, tailored for diverse projects.
- Developed over 50+ unique components and created UI framework using Vue.js, TypeScript, and Modular SASS.
- Applied a truly modular system and developed an exclusive CLI command, streamlining the development process.
- Worked closely with the UI team to develop a UI kit that enhanced the consistency and usability of our product.
- Conducted code reviews, provided feedback to team members, and mentored junior developers to improve code quality, and maintainability, and enhance their contributions to the team.
- Improved performance and reduced load times by optimizing code.

FRONT-END DEVELOPER

01/2017 to 01/2020

Freelance | Tehran, Iran

- Develop Applications UI via emerging front-end Technologies such as Vue.js and SASS.
- Tested web-based product functionality and delivered iterations to customers.

FRONT-END DEVELOPER

12/2015 to 10/2016

Hamikar | Tehran, Iran

- Creating UI kit for redesigning Web App of company.
- Developing new version of web app using Angular.js and Angular Material Framework.
- Review team member codes and train interns.
- Designed and updated layouts to meet usability and performance requirements.
- Improved tools to boost user interaction and deliver design versatility

FRONT-END DEVELOPER

07/2011 to 09/2015

Freelance | Tehran, Iran

- Developed UI for applications using emerging front-end technologies like jQuery and SASS, and within front-end web frameworks like Bootstrap.
- Utilized associated templates and tools to shorten development times.
